Basic information Description Order, delivery and payment

Where to buy Herduo?

The medicine Herduo was produced by the Indian company Natco Pharma, which is known all over the world for its quality generics. The medication is intended for the treatment of breast cancer in patients who have already undergone treatment and have not received the expected result. Herduo can be used in all stages of cancer by combining with other medicines. This medication should only be taken if it has been approved by your doctor after the appropriate tests have been completed.

Prices for the drug Herduo

Our Pharmacy offers you a unique opportunity to buy Indian generics at affordable prices. All thanks to cooperation with a large number of manufacturers from India who make similar quality counterparts. Herduo is based on the active ingredient lapatinib, which has been approved by the World Health Organization. You can buy the medicine only with a prescription, so hurry up to see your doctor. And then order Herduo from us. After all, everyone can afford it, unlike the expensive original. All medicinal products are certified and have the necessary licenses.

Active substance Lapatinib

Lapatinib has been approved by the World Health Organization. It can be used during breast cancer treatment as a replacement for a substance that previously failed to help. The active substance acts on cancer cells, stopping their multiplication. Lapatinib will not always lead to permanent healing, but, in any case, it will significantly strengthen the patient's immunity. Side effects that may occur: headaches; weakness; dizziness; bleeding from the nose; the patient is prone to viral diseases; problems associated with the gastrointestinal tract; allergy to the skin.

Description of Herduo

When purchasing Herduo, please note that the medicine must be in its original packaging. Each box contains 40 units of hard tablets. One tablet contains 200 mg of the active substance lapatinib.

Indications for Lapatinib

Your healthcare provider may prescribe Lapatinib for patients with breast cancer. The dosage should be checked in consultation with specialists. The drug is used as a replacement for another that has not previously helped.

Contraindications

Herduo should not be taken if: the patient has severe renal impairment; there are severe heart pathologies; the patient is pregnant or breastfeeding; the patient is a minor; there is a hypersensitivity to lapatinib.-

How to order Generic Herduo?

As soon as the doctor examines you and prescribes Herduo for treatment, you can place an order on the pharmacy's website. You just need to find a medicine in a convenient catalog. The order itself is made in one click. Everything will be very fast and affordable. If you have any questions, you can ask our consultants from the support service.

Delivery

After the product is added to the cart, you can start placing your order. Fill in all the information that is required for the delivery of the Herduo drug. It will be brought to any region of the Russian Federation. Both courier delivery and delivery to the post office are available to you.

Generic payment

Any payment methods convenient for you will be available to you. We can only give advice that it is best to pay for the goods at 100% prepayment, because this saves you and us time. In addition, you do not have to do any additional actions when the goods are delivered to you. If you have any questions, you can call the number listed on the website.
