Where to buy Trombopag 25 mg?

The drug Trombopag was produced in India by a company called Natco pharma. The substance is responsible for stimulating the production of new blood constituents. With Natco pharma, thrombocytopenia and hepatitis C can be treated. Trombopag has been proven to be effective through the cutting edge technology used in researching Trombopag. Today on the website the medication is available for order at any time of the day. With us, do not doubt that your health will be safe. Before starting therapy with Trombopag, check with your doctor for all the details, because self-medication can harm your health.

Prices for the drug Trombopag 25 mg

All Indian drugs are quality counterparts. This significantly affects their cost. After all, the price of an original medication is several times more expensive, because there you have to overpay for the brand. Trombopag is based on eltrombopag, which is also in the original. This suggests that their properties are equal. Today everyone who cannot spend a lot of money on treatment chooses to buy Trombopag because of its price. Order on our website right now, it is available 24/7.

Active substance Eltrombopag

Quite often, eltrombopag is compared to thrombopoietin due to the similar chemical composition and potency. After the first intake, it will already be seen how the active substance can affect the patient's body: the condition improves, because the blood cells in the bone marrow mature and multiply. Taking the active substance eltrombopag can confront the patient with negative reactions: inflammation of the oral mucosa; the appearance of infections in the genitourinary system; nausea; severe dry mouth; baldness with allergies of a different nature; back pain; dry mouth.

Description

The drug Trombopag obliged to sell only in their original packaging, in which the manufacturer's logo is placed. One pack contains 28 pieces of tablets. One such tablet contains 25 mg of eltrombopag and additional components.

Indications Eltrombopag

Trombopag is used by physicians to treat patients with thrombocytopenia or hepatitis C. Use only as directed and only after consulting a physician.

Contraindications

Trombopag is contraindicated in pregnant women; for breastfeeding women; for patients with liver or kidney pathology; patients who have developed allergic reactions as a result of therapy with eltrombopag.
